The iPhone is a multimedia, internet enabled smart phone marked by Apple Inc. Apple iPhone has managed to make a mark for itself in the industry and the launch of each Apple iPhone is received with a lot of excitement. The Apple iPhone 4 16GB phone has also created a similar hype in the market.

An iPhone is always well known for its stylish designs. However the design of the Apple iPhone 4 16GB is slightly different from standard design that comes in the other Apple iPhone. This model of iPhone comes in a stainless steel and industrial glass design. The Apple iPhone 4 16GB weighs about 137 g and has a measurement of 115.2mm x58.6mm x9.3mm. The edges are made of stainless steel and the frontal and rear have been made of stronger glass which is doesn't break very easily. The design is more elegant and classy when compare to the other models. It has a touch based display screen on 3.5 inches. The resolution stands at a 960 x 640 pixel. This definitely makes it as a phone with the maximum resolution.

The Apple iPhone 4 16GB runs on iOS4 that can be upgraded to iOS 5 as well. The iOS4 has many features of which multitasking is something that is worth entioning. With just a tap one can see the applications that are open and horizontally swipe through those applications that have been either in a suspended or running state. It is capable of picking up an application right at where it was suspended. It runs on a 1Ghz cortex processor and a 512 MB RAM. It has a storage capacity of 16 GB. It comes pre-loaded with many applications like Google maps, Twitter, Image editor, icloud service etc. There is also a dedicated mic for Noise Cancellation. It is Wi-fi, Bluetooth and Edge enabled.

Phone 4 is having a 3.5 inches LCD capacitive touchscreen with Retina Display of 960x640 pixels resolution, a 5 Megapixels camera with LED flash and 720p HD video capturing, an additional front facing camera for video calls over Wi-Fi connection, Skype Mobile video calling, three-axis gyroscope, 3G, Wi-Fi b/g/n, A-GPS, 32GB or 16GB internal storage. Verizon iPhone 4 is also having VZ Navigator, and V CAST Media Manager apps.iPhone 4 16GB and the way its built is EXTREMELY SEXY.

The Apple iPhone 4 16GB has a primary 5 MP camera at the back and a secondary camera in the front which can be used for video calling purposes. It also supports a digital zoom of 5X. It shoots at 720 pixels at a frame rate of 30 frames every second.
